

GOVERNMENT
OF THE OMSK REGION

2
Omsk
Oblast
years

INVESTMENT POTENTIAL OF THE OMSK REGION

Dear partners and investors!

The Omsk region is open to business partnerships and is ready to fortify you in implementing your business initiatives.

Our region occupies a favorable geographical position: at the intersection of railway lines, federal highways and a major waterway. The economy of the Omsk region reposes on the strong agriculture, the developed industry and the serious scientific potential.

We are ready to offer investors a wide range of government support measures: from tax relief and subsidies to the land granting with no tendering process.

We are ready to help anyone who is interested in developing business in the Omsk region with the finding of sites, solving legal and financial issues, and entering new markets. We understand that the development of the region largely depends on the successful implementation of your investment projects

I am looking forward to our cooperation!

*Governor of the Omsk region
V.P. Khotenko*

FROM THE BOUNDLESS TAIGA TO THE STEPPE VASTNESS

Territory of the Omsk region is **>141 000** sq.km.,
representing **1/15** part of the West Siberia

Omsk was founded in
1716

The Omsk region was formed in
1822

47,6%

agricultural land

33,1%

forests

16,4%

water
bodies

2,9%

other
land

Total population
of the Omsk region
1832,1 thous. people

Population density
13,5 of people per 1 sq.km.

53,8% women

46,2% men

72,9%

urban population

27,1%

rural population

There are **6** towns in the region:

Omsk city – **1 147,2** thous. people

Tara – **28,3** thous. people

Isilkul – **22,2** thous. people

Kalachinsk – **24,4** thous. people

Nazyvaevsk – **10,8** thous. people

Tyukalinsk – **10,2** thous. people

PRODUCTION POTENTIAL

Petroleum chemistry the leader of the region's industry

>20 large and medium-sized organizations

~17 thousand employed

~800 billion rubles of annual output

Omsk Oil Refinery is the largest oil refinery in Russia

▶ **Omsky kauchuk**

OJSC Omsk Kauchuk is one of the Russian leaders in synthetic rubber production

- ▶ **CJSC “Omsk Plant of Innovative Technologies”**
- ▶ **LLC “Poliom”**
- ▶ **LLC “Omsk Polypropylene Plant”**
- ▶ **OJSC “Omskshina”**
- ▶ **LLC “Omsk Carbon Black Plant”**

Enterprises' products:

- **~50** types of petroleum products
- **>20** grades of carbon black
- **10** grades of polypropylene
- **~50** models of tires
- **>10** types of polymer film and flexible packaging

Oil refining efficiency

89,5 % – the Omsk region

82,7 % – Russia

Large industrial center of Siberia

>50 large
and medium-sized
organizations

26 agricultural
engineering enterprises

>50
thousand
employed

~ 90 billion rubles
of annual output

Omsk mechanical engineering is represented in all key industries of Russia

- ▶ **PA “Polet”** (Branch of JSC “Khrunichев State Research and Production Space Center”) is one of the **largest industrial enterprises in Russia России**
- ▶ **SPA “Mir”**
- ▶ **JSC “Omsk Research Institute of Instrument Engineering”**
- ▶ **JSC “Omsk Transport Engineering Plant”**
- ▶ **LLC “Planeta-Center”**

Enterprises' products:

- **>250** various spacecraft: **87** GLONASS navigation system devices
- Large-scale production of rocket modules for the Angara launch vehicles»
- Production of mobile radio facilities
- Design and production of prototypes and small series of military engineering equipment
- Cryogenic and cryovacuum equipment

AGRICULTURAL AND INDUSTRIAL POTENTIAL

The Omsk region is one of the leading regions in the production of agricultural products in the Siberian Federal District and the Russian Federation as a whole

1,6% of the total volume of gross agricultural output of the Russian Federation

15,0% of the volume of gross agricultural output of the Siberian Federal District

129,6 BILLION RUBLES

Agricultural production volume in 2022

379,7 MILLION US DOLLARS

Export volume of agricultural products of the Omsk region in current prices as of 2022

4 PLACE in the SFD

25 PLACE in the RF

Agricultural area

6,4 million ha or **45 %** of the Omsk region territory, arable land area – **4,05** million ha, of them **83,1 %** (**3,34** million ha) is farmed, **2nd** place in the SFD

Share in the total agricultural production

60 % crop production

40% cattle breeding

Gross collection

2,9 million t. of cereal crops and grain legume crops, including

193 thousand t. peas

332,3 thousand t. of oil crops, including

35 thousand t. sunflower

105 thousand t. rape

229 thousand t. crown flax (oil flax)

496,2 thousand t. of vegetable crops, including

352,1 thousand t. potatoes

144,1 thousand t. vegetables

Gross collection and production in the farms:

2,9 million tons of grain: **3** place in the SFD and **20** place in the RF

332,3 thous. tons of oil-seeds: **4** place in the SFD and **24** place in the RF

352,1 thous. tons of potatoes: **3** place in the SFD and **16** place in the RF

144,1 thous. tons of vegetables: **3** place in the SFD and **23** place in the RF

5,0 thous. tons of linen flax: **1** place in the SFD and **1** place in the RF

606,3 thous. tons of milk: **4** place in the SFD and **18** place in the RF

190,8 thous. tons of meat: **4** place in the SFD and **29** place in the RF

869,2 million pcs of eggs: **5** place in the SFD and **23** place in the RF

192,0 thous. tons of peas: **3** place in the SFD and **6** place in the RF

Omsk enterprises are among the leading regions of the Russian Federation in the production of cheese and cheese products, sausages, canned condensed milk, alcoholic beverages, beer and beer drinks

Production share of the all-Russian volume

14,4 %
condensed
milk products

4,5 %
beer
and beer
drinks

3,4 %
butter

3 %
cheese and
cheese products,
cottage cheese

1,7 %
sausage
products

TIMBER INDUSTRY POTENTIAL

1/3 of the Omsk region territory is occupied by forests

2/3 area of all forests is concentrated in the north of the region

6 million ha is the total forest area

>63% forests of the Omsk region are represented by birch.

The sharply continental climate of the Omsk region creates conditions for birch growth, which has small annual rings and high strength

In terms of strength, Omsk birch is superior to beech and is close to oak, therefore it can be in demand in the production of furniture and construction materials

Birch forests are the main raw material resource for providing the capacity of large enterprises for added-value wood processing

2,7%
share of artificially planted trees and bushes

Every year the forest area increases on average

for **1000** ha

In 2021, reforestation works were carried out on the area

>12 000 ha

327 cu.m. of woodland falls on every resident of the region, which is **4** times higher than the same figure around the world

NATURAL COMPOSITION OF THE FOREST AREA OF THE OMSK REGION

POSSIBLE VOLUME OF EDIBLE FOREST RESOURCES AND MEDICINAL PLANTS

11 thous. tons of products, including:

5 thous. tons

Berries

(**50%** – cranberry,

15% – red huckleberry)

2 thous. tons

Cedar nuts

3,8 thous. tons

Medical plants
(red huckleberry leaves,
shelf fungus)

TOURISM POTENTIAL

The land of 5 lakes - the mysterious lakes of the Omsk region and the energy center of Russia - the village of Okunevo, where the annual ethno festival takes place “Solstic”. The water and mud in the five lakes are therapeutic.
(Muromtsevskiy district)

The only open-air museum of living history in the Omsk region “Siberian Old Times”
(Bolsherechenskiy district)

The Omsk region is an integral part of the interregional educational route - the Golden Ring of Siberia

Deposits of mineral salts and therapeutic mud, mineral underground waters
(nature reserve Lake Ebeity, Lake Ulzhay)

The only rural zoo in Russia - Bolsherechenskiy Zoo
(Bolsherechenskiy district)

Cruise tourism on the Irtysh River in the direction Omsk-Bolsherechie

Achairskiy Holy Cross Monastery with a holy spring
(Omsk district)

Chernoluchie-Krasnoyarka resort area with thermal chloride-sodium iodine-bromine waters
(Omsk district)

Preconditions

- ▶ Active development and state support of domestic tourism in the Russian Federation
- ▶ Growing demand among the various population groups for quality medical services and medical tourism services
- ▶ Variety of tourism resources:
26 protected natural areas of regional and local significance, therapeutic lakes, archaeological sites, urban planning and architectural monuments, cultural heritage sites of regional and federal significance
- ▶ The unique geographical location of the region in several eco systems: full taiga, small-leaved forests, northern and southern forest-steppes and steppes with their characteristic landscape features, flora and fauna
- ▶ Availability of human resources and scientific and technical base

Potentials

- ▶ Creation of a tourism cluster
- ▶ Improving the quality of health and medical services
- ▶ Development of 3R medicine: recreation, rehabilitation and relaxation
- ▶ Creation of a multi-format country complex: sports, education, recreation, congress and exhibition activities
- ▶ Development of cultural and educational tourism

HUMAN RESOURCE AND SCIENTIFIC POTENTIAL

Scientific research

Scientific research
and development involve

>7 thous. people, representing
41 innovation-active organizations
and **71** small enterprise in the
scientific and technological field

Annually, enterprises
and organizations of Omsk
region patent

~350 inventions, utility models
and pre-production prototypes

University science:

23 higher education bodies
(2 academies, 2 institutes, 9 universities,
10 branches of higher education
organizations)

Sectoral science:

17 scientific research organizations
12 design engineering departments

Academic science:

8 organizations (research centers,
laboratories, institutes)
3 large institutions in selection and
seed breeding of crops

Average salary, 2021

The Omsk region

46 554 rub.

SFD

56 061 rub.

Russia

64 191 rub.

The labor force size in the Omsk region is **1003,1** thousand people

The region's universities train specialists:

- ▶ **in the branch of industry and construction**
 - highly qualified specialists for industrial, engineering, oil and gas enterprises
 - for enterprises in the road construction and transport sectors of the economy
 - design engineer and constructor of water supply and water discharge systems
 - surveying engineer and geodetic engineer
- ▶ **in agricultural and industrial complex**
 - biotechnologists of food production
 - agronomists and agrochemists
 - commodity experts
- ▶ **in IT-branch**
 - system administrators
 - programmers, developers
- ▶ **in physical culture and sports**
 - ▶ **in the field of physical culture and sports**
 - tourism specialists
 - advertising and PR specialists
 - ▶ **academic personnel**
 - ▶ **in medicine**
 - qualified doctors and veterinary physicians
 - pharmacists
- ▶ **in military sector**
 - tank engineers and specialists in the field of operation and repair of the present-day armored vehicles
 - junior commanders and specialists of the Russian Airborne Forces
 - cadets
- ▶ **in the field of jurisprudence**
 - lawyers
 - criminalists
 - forensic experts

TRANSPORT AND LOGISTICS POTENTIAL

The region is located at the intersection of major transport routes:

Highways of the Omsk region:

- Total length **729,9** km
- Major federal highways:
 - R-402 Tyumen – Yalutorovsk – Ishim – Omsk
 - R-254 Chelyabinsk – Kurgan – Omsk – Novosibirsk (part of European route E30 and Asian route AH6)
 - A-320 Omsk – Cherlak – border with the Republic of Kazakhstan (part of European route E127 and Asian route AH60)
- **The volume of the transported cargo** by road transport of is more than 18 million tons, of which, intercity transportation is more than 4 million tons, international transportation is more than 9 thous. tons
- **A Public Private Partnership agreement was concluded on the construction of** the “Northern Bypass of Omsk” highway, which may become part of the extension of the M-12 highway (Moscow-Kazan-Mongolia)

Trans-Siberian Railway:

- Total length across the territory of the Omsk region **1209** km
- **7 freight yards** with storage areas and warehouses, 25 railway stations
- **International traffic:** in the east the highway provides access to the railway network of North Korea, China and Mongolia, in the west - through Russian ports and border crossings - to European countries

Dmitry Karbyshev International Airport:

- Among the top thirty Russian airports for the transportation of passengers, cargo and mail
- 1 cargo terminal with warehouses and open overpasses
- Annual passenger traffic **> 1,4** mil. people, cargo volume – **> 3** thous. tons

Water transport:

- The Ob-Irtysh basin has connections with Kazakhstan and China
- Provides access for the Omsk region to the Northern Sea Route and the Asia-Pacific region
- Developed property base of the river port - over 100 fleet units, mechanized cargo berths, storage areas and premises

The unique border location of the region, facilitating the passage of cargo traffic in all directions

- ▶ Borders with the Ural Federal District (**38%** of the region's borders), with Kazakhstan (**34%** of the region's borders)
- ▶ Developed economic links with the Ural Federal District
- ▶ The majority of cargo passes through the region in the direction of Europe-Kazakhstan-Central Asia
- ▶ The presence of road and rail connections with Nur-Sultan promotes effective interaction of Omsk and Kazakhstan transport hubs
- ▶ Availability of multilateral and bilateral border road checkpoints

THE REGION'S RAW MATERIAL POTENTIAL

Green energy

High potential for solar energy use

300 sunny days a year
with duration of sunshine

> 2200 hours.

Omsk takes **3rd** place in Russia
among cities with a million-plus population on sunny
days a year.

2 large solar electric plant,
were put into operation in the region with total
energy capacity of

60 Mwatt

Development prospects

Wind power sector:

The Omsk region is located on a plain,
open from the north and south, wind
speed is 4-5 m/s

Biofuel engineering:

availability of natural renewable
minerals: peat and forest.

Treasures of the soil

Construction sands:

52 deposits – reserves **190598** cu m,
corresponds to GOST 8736-2014,
Sanitary Regulations 449-72

Use in the construction sector:

- filling heavy, light, fine-grained, cellular and silicate concrete, construction and plaster mortars, dry building mixes
- production of roofing and ceramic materials
- production of sand-lime bricks
- leaners for fat clay in the production of ceramic bricks

Peat::

68 deposits – reserves **5824449** thous.t.

Use: agriculture:

- Fertilizers (“Gumostim”)
- Compost for champignons
- Products for goldfish
- Peat pots and tablets for gardeners
- Feed additives (“Gumiton”, feeding yeast)

Use: Industry:

- Fuel briquettes and pellets
- Filler for composting toilets
- Peat sorbent

Deep peat processing:

- coking (production of coke and resin)

Loams:

77 deposits –

reserves **58312 cu m**,
corresponds to GOST 530-2012,
Sanitary Rules and Regulations
2 .06 .05-84

Use:

- as a raw material for the production of “100”brand bricks and higher
- use for the construction of dams and barrages

Sapropel:

152 deposits – **156112 thous.t.**

Use: agriculture:

- Granulated organic-mineral fertilizers
- Sapropel substrate for growing green fodder in winter
- Feed additive “Saprosorb”, “Sibsorbent-1”
- Sapropel tar

Titanium-zirconium ore:

2 deposits – reserves: **48 973 thous.cu.m**

Confirmed reserves:

4,97 mil.t

Ilmenite

0,2 mil.t

Rutile

0,72 mil.t

Zircon

Use:

- **ILMENITE:** Welding electrodes, Paints and coatings, Plastics, Paper, Cosmetics, Aircraft manufacturing, Chemical plants, Medical implants
- **ZIRCON:** Foundry production, Nuclear industry, Chemical plants, Catalysts, Electrolytes, Gem stones, Cosmetics, Refractory materials, Ceramics
- **RUTILE:** Welding electrodes, Paints and coatings, Plastics, Paper, Cosmetics, Aircraft manufacturing, Chemical plants, Medical implants
- **QUARTZ SAND** (GOST 51641-2000): Purification of drinking and waste water

THE REGION'S RAW MATERIAL POTENTIAL

Low cadastral value of land:

Agricultural use, rub./sq.m.

Entrepreneurship, rub./sq.m.

Agricultural area **6,4** mil. ha
or **45 %** of the Omsk region territory

Arable area – **4** mil.ha,
farm land **83,1 %** (**3,34** mil.ha)

Production activities, rub./sq.m.

-  The Omsk region (Omsk)
-  The Irkutsk region (Irkutsk)
-  The Novosibirsk region (Novosibirsk)
-  The Krasnoyarsk territory (Krasnoyarsk)
-  The Altai territory (Barnaul)
-  The Tomsk region (Tomsk)

THE REGION'S ECONOMY

As a result of improving the business climate and creating a favorable business environment, a significant increase in the investment activity of organizations was ensured

5 place in SFD / **34 place** in the RF
by volume of tax and non-tax revenues
of the consolidated budget of the Omsk region

by growth rate of investments in the regional economy*

2 place in SFD / **14-15 place** in the RF

* Within a three-year cycle from 2019 to 2021

by volume of investments
in the fixed capital

5 place in SFD

Dynamics of investments in the fixed capital of the Omsk region:

Mil. rub.

Index, % compared to the previous year in comparable prices

Gross Regional Product structure:

28,5 % manufacturing

7% transportation and storage

11,7 % real estate activities

6% public administration and defense, social security

10,3 % wholesale and retail trade

5% human health and social work activities

9,5 % agriculture

4,9% construction

Bb volume of Gross Regional Product

36 place in the RF

5 place in SFD / **34 place** in the RF

investments in the fixed capital (structure):

Machinery, equipment, vehicles, production and household equipment

Construction and reconstruction of industrial buildings and structures

Construction of residential buildings and premises

Other

THE REGION'S CONSTRUCTION INDUSTRY

Amount of construction work

according to the results of in the Omsk region:
110,5 billion rubles, which corresponds to
22 place in the Russian Federation
 and **4** place in the SFD

Put into service

as per number of the buildings:

3192 buildings, including **2977** of residential
 (93% of total volume)

as per total area of the buildings:

>1 mil. m2, including **>805** thous. m2 of residential
 (74% of total volume)

as per total structural volume of the buildings:

4,9 mil. cu. m, including **3** mil. cu. m of residential
 (60,5% of total volume)

Over the past year, the region has planned to implement 4 large-scale investment projects to create high-quality and comfortable housing that meets international standards in the city of Omsk

~2 mil. sq.m of housing
 will be built as a result of the
 implementation of projects
(43 thous. flats)

~2100 flats
 will be transferred to the ownership
 of the region to give them to people
 displaced from emergency housing
 and orphans

19 kindergartens
6 schools

Project investments make to about **150** billion rubles

Construction of large-scale projects is actively implemented in the city of Omsk

In 2022, a new hockey Arena - Omsk, a 6-story building with an area of more than 60 thousand sq.m. and 12 thousand seats was built and put into operation.

The arena bowl was built according to NHL standards: perfect visibility, powerful acoustics

In 2021, the new Omsk Cadet Military Corps was built and put into service - the oldest military educational institution in Siberia. 25 objects appeared on an area of almost 15 hectares. The capacity of the educational institution is 560 places.

Construction of the hotel complex "Cosmos Hotel Omsk" category 4*

9-storey building with a capacity of 204 rooms and a congress center

Construction of an administrative and hotel complex "CURIO collection by Hilton"

7-storey building with a capacity of 120 rooms

Construction of the "Solnechny" logistics park for large retail chains and logistics operators.

The area of the land plot is 81 hectares.

FOREIGN COMMERCE OF THE OMSK REGION

Dynamics of the foreign commerce in the Omsk region

2017-2021 (mil. dollars)

Export commodity structure

2021

43,7%

Chemical products

30,3%

Food products

11,3%

Engineering products

14,7%

Other

Import commodity structure

2021

35,4%

Engineering products

14,3%

Chemical products

18,8%

Food products

31,5%

Other

Interregional cooperation

> 80 cooperation agreements with regions of all federal districts
in trade, economic, scientific, technical, cultural, social and other fields

The trade turnover of the Omsk region with the regions of Russia tends to increase, which indicates the strengthening of interregional links and improvement of foreign trade infrastructure, as well as the annual growth of production capacity of large enterprises in the Omsk region

THE OMSK REGION EXPERIENCE IN HOSTING MAJOR INTERNATIONAL EVENTS

XVI Forum of Interregional Cooperation of Kazakhstan and Russia “Current issues in the development of cross-border cooperation”

Annual international forum of social entrepreneurs and investors «INNOSIB»

Annual Siberian International Marathon

International Rally «Silk Way»

The world's largest competition in rally raids across the territories of three countries - Russia, Mongolia and China

International events allow the Omsk region to:

Make a name for the potential investors

Prove itself on the international stage as a reliable partner for doing business

Accelerate the adoption of important large-scale socially oriented projects

Develop the business attractiveness of the region, demonstrate its trade, economic and investment opportunities to Russian and foreign partners

DEVELOPMENT TERRITORIES IN THE OMSK REGION

Investment Internet portal of the Omsk region

Current information on the proposed investment sites in the region:

purpose, their area, form of ownership, infrastructure, etc..

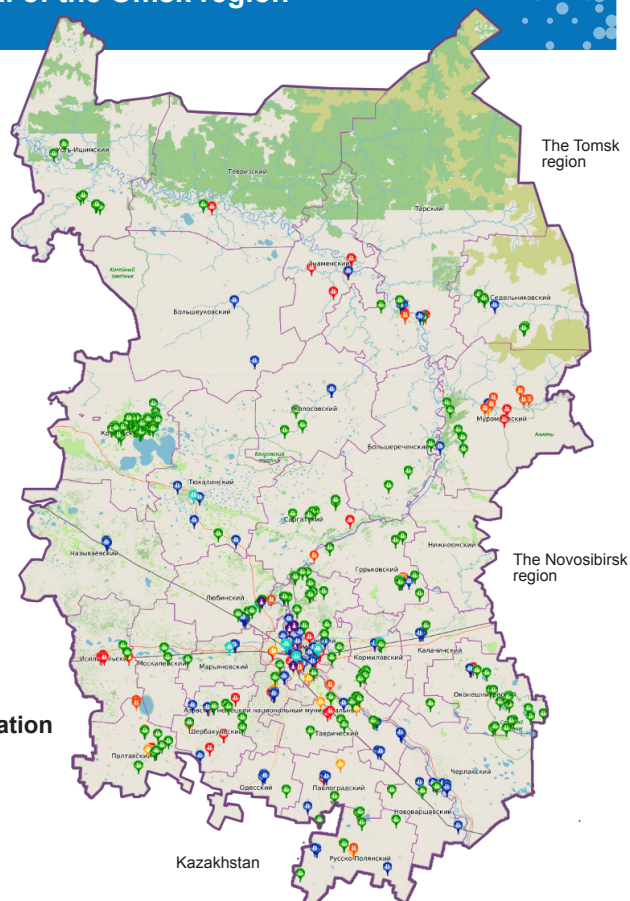

<https://geo.omskportal.ru>

About

500 land plots

are offered for the implementation of investment projects

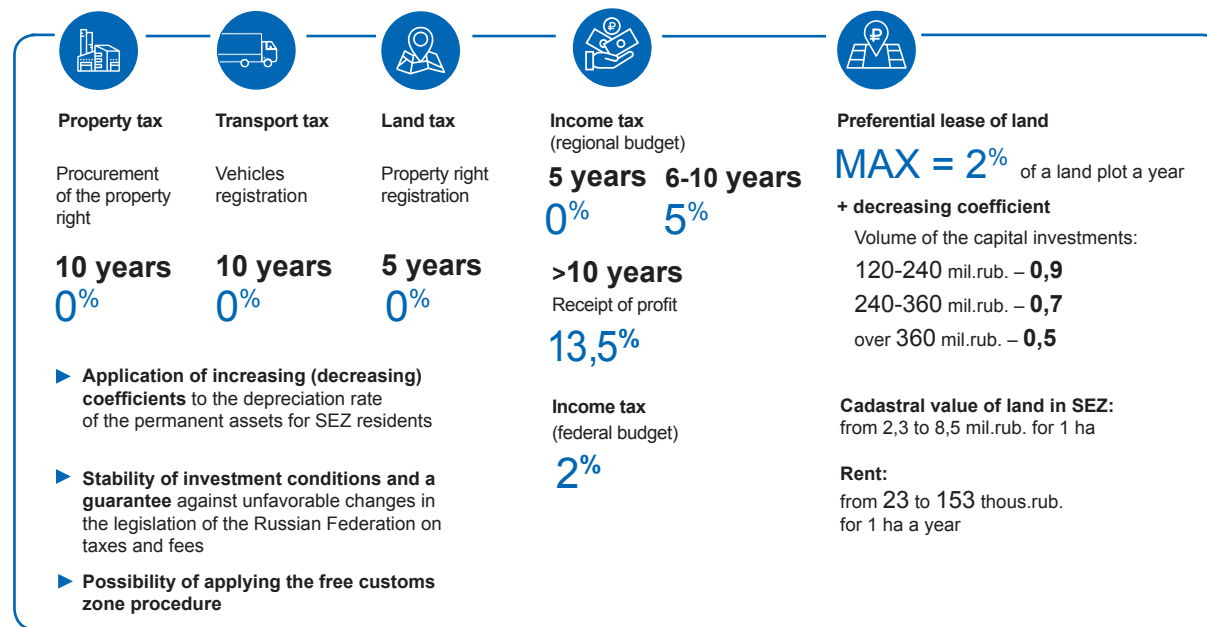

DEVELOPMENT TERRITORIES IN THE OMSK REGION

Special economic zone «Avangard»

Project relevance:

- **availability of raw materials:** an oil pipeline and an oil refinery are capable of supplying a sufficient volume of raw materials for the development of petrochemicals
- **developed base of production capacities in oil refining** (oil refinery) **and petrochemicals** (plants for the production of synthetic rubbers, carbon black, polypropylene)
- **availability of educational institutions**, providing training in specialized areas

Preferences of the SEZ

ELECTRIC SUPPLY

Available power 19,5 Mwatt

GAS SUPPLY

Connection within the SEZ

WATER SUPPLY

There are connection points for water consumption and wastewater networks

RIVER TRANSPORT

6 km to the navigable river Irtysh

AUTOMOBILE TRANSPORT

Access to the Krasnoyarsk highway; construction of the Northern Bypass is planned, connecting the territory with a federal road Chelyabinsk-Kurgan-Omsk-Novosibirsk

RAILWAY

a railway connection on the territory with access to the Trans-Siberian railway, 2 km to the nearest railway station "Kombinatnaya"

PRIORITIES

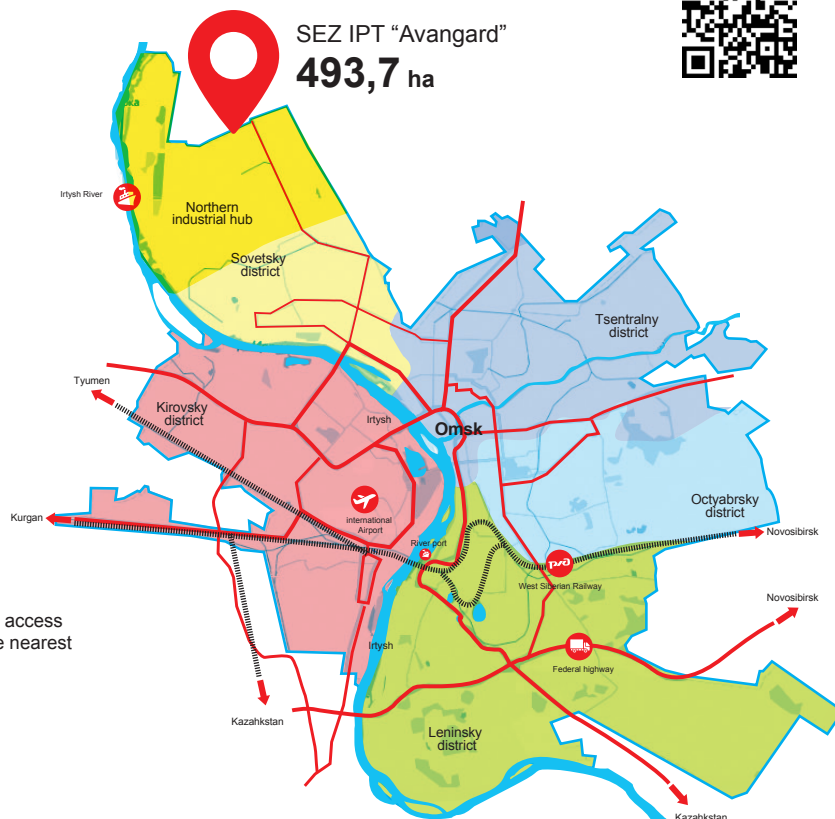

- logistics
- warehouses and storage areas
- petrochemical industry
- industrial production

On the territory of the SEZ «Avangard» in the coming years it is planned

to build 4 large-scale production facilities:

- ▶ Graphitized electrode plant
- ▶ Industrial waste processing plant
- ▶ Bisphenol A production plant
- ▶ Plant for the production of metal structures for oil and gas enterprises

CONTACTS:

SEZ IPT "Avangard"

DEVELOPMENT TERRITORIES IN THE OMSK REGION

Private agro-industrial park «Makosh»*

AVAILABLE RESOURCE BASE

111 land plots with a total area of 221 hectares (190 hectares to accommodate residents)

water supply reaches the borders of the agricultural park (TC 208 thousand cubic meters/year)

2 junctions in the right of way of the federal highway R-254 to the territory of the agricultural park

12 km of internal motorways

- 10 kVA line of 5 Mwatt
- 10 and 0.4 kVA networks are separated throughout the agricultural park
- 10/0.4 kVA substations installed

SPECIALIZATION

- Production of agricultural machinery
- Processing of agricultural products
- Logistics complexes
- Railway terminals

ADVANTAGES

- ▶ **Advantageous geographical position:**
located on the border with the city of Omsk along the Southern Bypass
- ▶ **Developed logistics system:**
Federal highway R-254 Irtysh, regional highway R-393, river cargo port 2 km, railway station "Karbyshevo-2" 4 km; Karbyshevo-1 railway station (freight yard) of the Trans-Siberian Railway, 13 km
- ▶ **Developed communal infrastructure**
with sufficient resource limits for investors
- ▶ **Flexible conditions for renting and purchasing land plots**
- ▶ **Use of completed engineering surveys**
- ▶ **Construction according to customer specifications**
- ▶ **Administrative support from the management company and regional authorities**

DEVELOPMENT TERRITORIES IN THE OMSK REGION

Private industrial technology park «Irtys»*

AVAILABLE RESOURCE BASE

The total volume of electricity capacity is 2.5 Mwatt /hour

The total volume of heat power capacity is 13.5 Gcal/hour

The total volume of water supply capacity is 1.6 m³/hour

Total volume of water disposal capacity 1.1 m³/hour

The possible total volume of gas supply capacity about 2,000 cubic meters

The length of roads on the territory of the industrial technology park is 2100m

SPECIALIZATION

Production of construction materials and related products, processing, disposal of ash waste

REQUIREMENTS FOR RESIDENTS:

- ▶ legal entity or individual entrepreneur
- ▶ is not in a liquidation procedure or a procedure applied in an insolvency (bankruptcy) case, has no arrears in paying taxes, fees and other obligatory payments to the budget system of the Russian Federation at the location of the applicant
- ▶ has no debt to the budget system of the Russian Federation
- ▶ the applicant's investment project corresponds to the goal of developing an industrial technology park and is aimed at developing a production facility (facilities) on the territory of the industrial technology park and carrying out economic activities on the territory of the industrial technology park related to the production of products (goods, works, services) or innovative (technological, service) activities

The total amount of funds required for the construction (reconstruction) of a public utility facility is **100 mil. rub. min**

The amount of own funds is **70 % min** of total funds

To implement investment projects to create an industrial (industrial) park

SPECIAL INVESTMENT CONTRACT (SIC)

This is an agreement between the investor and the state, which fixes obligations:

The investor undertakes to implement an investment project with the aim of developing and introducing advanced technology to manufacture globally competitive industrial products in Russia.

Two variants are available: SIC 1.0 and SIC 2.0

SIC 1.0

Focus:
creation or modernization and (or)
development of industrial production

Conclusion procedure:
750 mil.rub.

Механизм заключения:
Filing order

Initiator of the competitive selection:
Investor

Parties to the contract:

- Federal SIC:
RF+RF entity+MU+investor
- Regional SIC:
RF entity+MU+investor

SIC term:
Up to 12 years

SIC 2.0

Focus: development of serial production of industrial products based on the advanced technology

Conclusion procedure: Competitive

Initiator of the competitive selection:

- RF
- RF + RF entity + MU
- Investor

Parties to the contract: RF + RF entity + MU+ Investor

Limitation on the scope of government support measures:
should not exceed 50% of the volume of capital investments

SIC term:

- up to 15 years (investments less than 50 billion rubles)
- up to 20 years (investments more than 50 billion rubles)

No investment threshold

List of advanced technologies for concluding SIC 2.0
approved by Order of the Government of the Russian Federation
d.d. November 28, 2020 No. 3143-r. The List includes 630 advanced
technologies of 15 industry branches.

The state undertakes to implement measures to stimulate activity in the industrial sector provided for by federal and regional legislation.

ADVANTAGES:

- Possibility of faster and simplified acquisition of the “Made in Russia” status
- Possibility of obtaining the “Sole Supplier” status for government procurement
- Possibility of issuing certificates to buyers to apply accelerated rate of depreciation
- Lease of land without bidding
- Reduced corporate income tax rate **0 %**
- Exemption from corporate property tax by **50 %**

SIC can be combined with any support measures.
Combination/summation of tax benefits is not allowed.

Federal Law No. 488
“Concerning industrial policy in the Russian Federation”

1 SIC was concluded in the region for implementation of a large-scale investment project

FINANCING THE CREATION OF INFRASTRUCTURE FACILITIES FOR THE IMPLEMENTATION OF NEW INVESTMENT PROJECTS (NIP) AT THE ACCOUNT OF THE ENTITY'S BUDGET

Financing is aimed at reimbursing the costs actually incurred by investors to create infrastructure facilities necessary for the implementation of the research and development project

NEW INVESTMENT PROJECT - a set of measures limited in time and resources aimed at the creation and subsequent operation of new fixed assets or the reconstruction of existing facilities that are put into operation after January 1, 2021.

NIP cost must be 50 mil.rub. min.

Financing for the creation of NIP infrastructure facilities is carried out from the budget of the constituent entity of the Russian Federation, formed as a result of a decrease in the volume of repayment of the debt of the constituent entity of the Russian Federation to the Russian Federation on budget loans

INFRASTRUCTURE FACILITIES - transport, engineering, energy facilities

and communal infrastructure, infrastructure facilities of industrial (industrial) parks, industrial technology parks, special economic zones, territories of rapid socio-economic development, innovative scientific and technological centers.

FINANCING IS AIMED AT

- carrying out engineering surveys, design, examination of design documentation and (or) engineering survey results
- construction, reconstruction and commissioning of infrastructure facilities
- connection (technological connection) of capital construction projects to engineering and technical support networks

About 30 areas to implement NIP

The released funds are directed by the constituent entities of the Russian Federation to finance infrastructure facilities, financial support for the implementation of which began not earlier than January 1, 2021

Decree of the Government of the Russian Federation d.d. October 19, 2020 No. 1704, d.d. October 12, 2021 No. 1740

Decree of the Government of the Omsk Region d.d. December 30, 2020 No. 604-p-n

2 projects in the field of industrial production and hospitality activities received financial support

INVESTMENT TAX CREDIT IN THE OMSK REGION (ITC)

ITC is a change in the tax payment deadline, where an organization is given the opportunity, within a certain period and within certain limits, to reduce its tax payments followed by stage-by-stage payment of the loan amount and accrued interests.

ITC can be provided for one federal tax (organizational profit tax) **and all regional taxes** (organizational property tax, gambling tax, transport tax) **and local taxes** (land tax). It's possible to receive several ITCs at a time.

(Article 66 of the Tax Code of the Russian Federation, Law of the Omsk Region No. 1505-OZ, subparagraph 1, paragraph 2, Article 4 of the Law of the Omsk Region

No. 2514-OZ, paragraph 5 Article 1 of the Law of the Omsk Region No. 1106-OZ)

FEDERAL TAX

An organization can receive an ITC if it:

- carries out Research and Advanced Development or technical re-equipment of its own production,
- carries out implementation or innovation activities
- carries out a particularly significant order for the socio-economic development of the region or provides particularly significant services to the population
- carries out state defense orders
- invests in the creation of facilities and technologies with high energy efficiency
- is a resident of a territorial development zone

ITC term from 1 to 5 years

(An exception is a loan for residents of a territorial development zone; it can be provided for a period of up to 10 years)

ITC rate

between **1/2 and 3/4** Bank of Russia refinancing rates.

Interest is not charged on loans for residents of the territorial development zone

REGIONAL AND LOCAL TAX

An organization can receive an ITC if:

- The volume of capital investments in the project is **50 mil.rub.min.** in the creation and acquisition of property for production purposes
- Small and medium-size enterprises with the volume of capital investments in the project **10 mil.rub.min.** in the creation of facilities in the field of electricity supply, gas supply, heat supply, water supply, sanitation, intended for the provision of public services

ITC term

for the payback period provided for by the investment project, but not more than 10 years

ITC rate 0,01% per annum

Exemption from property tax by 50 % for organizations in relation to property for industrial purposes which after January 1, 2013, but not earlier than the provision of an investment tax credit, was created, acquired for a fee and (or) put into operation

Preferential corporate income tax rate 13,5%
(valid till 2025)

5 companies have used ITC

REGIONAL INVESTMENT PROJECT (RIP)

RIP is an investment project aimed at production of goods in a certain region of the Russian Federation

REQUIREMENTS FOR RIP AND THEIR PARTICIPANTS:

- 1 The organization receives the RIP participant status from the day it is included in the register of RIP participants
- 2 Minimum amounts of capital investments in accordance with the investment declaration:
 - **50 mil.rub.** subject to capital investments made within a period not exceeding 3 years from the date the organization is included in the register of RIP participants
 - **500 mil.rub.** subject to capital investments being made within a period not exceeding 5 years from the date the organization is included in the register of RIP participants
- 3 Only Russian organizations can be RIP participants
- 4 The organization must be registered in the territory of the RF region where the RIP is implemented
- 5 The organization must not have separate divisions outside the RF region where the RIP is implemented.
- 6 The organization does not apply special regimes, is not a resident of a SEZ or a priority social and economic development area, and is not a member of a consolidated group of taxpayers
- 7 The organization has not previously been a participant in the RIP and is not a participant (successor of the participant) of another current RIP
- 8 The result of the project is the production of goods

TAX BENEFITS FOR RIP PARTICIPANTS:

INCOME TAX

0 % rate to the federal budget,

10,0 % rate to the regional budget

Tax benefit period: before the reporting period, where the savings on income tax on an accrual basis will be equal to the volume of capital investments in RIP, **but not later than:**

- **January 1, 2027** for RIP with minimal volume of capital investments

50 mil.rub.

- **January 1, 2029** for RIP with minimal volume of capital investments

500 mil.rub.

EXEMPTION FROM PROPERTY TAX FOR 50 %

Tax benefit period:

During first 5 years starting from the first day of the tax period in which the commissioning of the created property is ensured or in which the property was acquired, but not later than December 31, 2028

Tax Code of the Russian Federation, Laws of the Omsk Region
No. 1497-OZ, No. 2514-OZ, 1106-OZ

2 large-scale projects in the region got RIP status
